

# ORAN ALGERIA

## CALL FOR PAPERS

ENPO is thrilled to announce the first edition of WNC-AI 2025. Hosted in Oran, this event will be a historic gathering where Oran welcomes renowned experts and innovators from around the globe. The conference will showcase the transformative role of AI in terrestrial and space communication systems, paving the way for a future where flying cars, drones, IoT, and people are seamlessly connected. It aims to highlight how these advancements will shape the economy of tomorrow.

## SCOPE AND INTEREST

Topics of interest for submission include, but are not limited to:

- 5G, 6G, and beyond.
- PHY and MAC Layers, routing, and Secure communication solutions.
- AI contribution for antenna conceptions.
- Fog and Mobile Edge Computing.
- Satellite communications.
- Artificial Intelligence and Machine Learning Fundamentals.
- Communication Systems, IoT and space engineering
